

## Flute, C

### Date

1785-1795 ca.

### Primary Maker

Richard Potter

### Description

Ivory body in five sections, with graduated tuning slide in the head joint. Simple system keywork, with six silver keys mounted on a turned ring and turned blocks, the channels of which are lined with silver. The key heads are pewter plugs. Ivory screw cork adjuster. This flute exhibits many features of Richard Potter's landmark 1785 patent.
