

Basic Detail Report

Bāya

Date

1900-1925 ca.

Description

Copper, bowl-shaped body with an animal skin head attached with cord lacing. Notes on the bayan are created by using differing pressure and placement of the hand on its head. The bayan is roughly an octave lower in pitch than the dayan. Played as a set with NMM 1188.

Dimensions

Shell height: 200 mm Diameter: 230 mm
