

Basic Detail Report

Cornet, C, B-flat, A, high pitch / low pitch

Date

1915 ca.

Primary Maker

C. G. Conn, Ltd.

Description

This instrument is among the very first made after C. G. Conn sold his business to Carl Greenleaf, who named the business C. G. Conn, Ltd. Silver-plated brass body, gold plating at flaring part of bell exterior, bell interior, ferrules, touchpieces, and valve caps. Fixed leadpipe, single loop, main tuning slide with push-rod-operated quick-change to A (push-rod missing) at first bow; main tubing entering the valve section at the third valve; rotary-valve quick-change from C to B-flat following valve section and arranged vertically. French rim with iron wire insert. Single water keys at main tuning slide and third valve slide. Three tower-sprung Périnet valves, two guidepins of

unequal width and thickness, mother-of-pearl touchpiece inlays. Lyre holder at third valve slide receiver.

Dimensions

Height (without mouthpiece): 410 mm Bore (second valve slide): 11.7 mm Bell diameter: 116 mm
