

Flute, C

Date

1860-1900 ca.

Description

Reddish-brown tropical hardwood body in three joints with tuning slide. Simple system keywork including four cup-shaped keys mounted on posts. Accompanied by metal mouthpiece which clamps on near embouchure hole and which was designed to direct the air to the embouchure hole. This unsigned instrument might have been made in England.

Dimensions

Overall length: 612 mm Embouchure hole: 11.2 mm x 9.3 mm
