

Alto recorder, F

Date

1800-1825 ca.

Primary Maker

W. G. Troup

Description

Three sections, foot joint missing. Boxwood with ivory ring. Thumbhole and six fingerholes on the main joint. Little is known about W. G. Troup. A set of pastoral bagpipes in the Highland Folk Museum (Kingussie, Scotland) marked "W G Troup / Stonehaven / 1826" may suggest that Troup worked or, at the very least, lived along the northeast coast of Scotland in the early nineteenth century.

Dimensions

Overall length: 376 mm
