

# Basic Detail Report

---

## Tenor trombone, B-flat

**Date**

1744

### Primary Maker

Johann Paul Franck

### Description

Brass body in two parts (slide section and bell section), garland and bell-stay silver-plated; bell with overlapping tab seam and signs of spinning; garland engraved with a festoon pattern between signature legend and rim; Nuremberg rim of floral-impressed wire; flat bell-stay engraved and stamped with floral designs on both sides, hinge and hinge-pin silver-plated, hinge saddle encloses the entire circumference of the bell pipe and is engraved with zigzag-line patterns and stamped with tiny flowers; tubular slide stays with rolling-mill-impressed floral design; ferrules with engraved double lines; bell-bow and slide-bow saddles with engraved zigzag lines. Restored by Instrumentenbau Egger in Basel in 1989: The missing mouthpipe inner slide with the upper ferrule and part of the cross stay were replaced. All silver parts were newly silver plated.

### Dimensions

Tube length: 2677 mm Slide length (original slide): 651 mm Internal diameter inner slides: 9.4 mm Bell diameter: 121 mm Overall length: 1120 mm
