

Basic Detail Report

Trumpet, B-flat, A, low pitch

Date

1930 ca.

Primary Maker

Bohland & Fuchs

Description

Silver-plated brass, satin finish, burnished highlights at signature, valve caps, finger buttons and valve slides (now showing brass, originally likely silver-plated), mother-of-pearl inlays at finger buttons, narrow single loop, H-shaped quick-change to A insert slide with stop rod, main tuning slide at first bow, three Périnet valves (1, 1/2, 1 1/2), bottom-sprung, alignment by one key on nickel-plated brass pistons, single water key at main tuning slide, windway 3-2-1. The "peashooter" trumpet design with long, slim body was popular in the late 1920s and early 1930s. M. Koriot appears to have been either a distributor or trade name of Bohland & Fuchs in Graslitz. These makers can be identified by the anchor sign on the

second-valve casing.

Dimensions

Height: 513 mm Tube length: 1324 mm Bore diameter (initial, minimum, tuning slides, valve slides): 10.8 mm, 10.4 mm, 11.2 mm, 11.64 mm, 11.66 mm (0.459 inches) Bell diameter: 109 mm (4-1/4 inches)
