

Basic Detail Report

Vivi-Tone clavier speaker cabinet

Date

1934-1938 ca.

Primary Maker

Vivi-Tone Company

Description

Speaker cabinet with one 12-inch speaker and a motorized tremolo effect. Cabinet is rectangular, with cutout curves around the bottom, and a circle-topped rectangular window with a vertical center brace, backed by a tightly meshed metal screen. There is an "On/Off" switch near the top on the right-hand side, as well as a four-pronged speaker cable input jack and a three pronged female power input jack mounted at the center of the lower edge of the rear. The tremolo effect is created by a three-paddled wooden fan which passes in front of the speaker. The fan is driven by a belt system powered by a General Electric motor. For use with Vivi Tone clavier NMM 10878

Dimensions
