

Basic Detail Report

Trumpet, B-flat

Date

1962

Description

Brass, originally silver-plated (now mostly worn off), double loop, narrow conical main tuning slide at third bow, three mechanical-linkage rotary valves (1, $\frac{1}{2}$, $1\frac{1}{2}$), horseshoe stop, clock-spring return (no regulating device), single water key at first bow, windway 1-2-3. Silver-plated brass mouthpiece, stamped: 11
Common Saxon rotary-valve trumpet model, as sold, for example, by Ferdinand Glier & Son in Klingenthal as early as about 1867.

Dimensions

Height: 350 mm Tube length: 1275 mm Bore diameter (initial, minimum): 11 mm, 9.2 mm Bell diameter: 123 mm
