

Basic Detail Report

Diatonic bell harmonica, D

Date

1900 ca.

Description

The novel design of this bell harmonica features a "nested" bell on both the top and bottom. A lever with a

round button on the right side allows the bells to be rung while playing. Bell harmonicas like this are relatively rare and much sought after by collectors.

Dimensions

Length: 127.2 mm Width: 59.4 mm Height: 20.7 mm Height of bells: 32.4 mm Diameter of bells: 27.5 mm
