

Basic Detail Report

Trombone neckpipe section

Date

1999

Primary Maker

Antoine Courtois

Description

Yellow brass valve and wrap tubing with nickel silver and brass ferrules, nickel silver trim. Yellow brass knurled nut for slide receiver. Yellow brass knurled nuts for bell brace connections. Nickel silver valve linkage. Lacquer finish. Straight gooseneck with rotary valve that diverts flow to valve wrap. Valve wrap is open in design with two full turns and one half turn. Valve wrap tuning slide in rearward wrap bow. One traditional rotary valve in gooseneck, rearward of main bell brace. Mechanical linkage. Lowers pitch a perfect fourth to F. This is one of the two valve options offered with the E700 series, known as "EVB".
