## Trombone slide

**Date**

1999

**Primary Maker**

Antoine Courtois

### Description

Yellow brass outer slide, crook, and cork barrel assembly. Chrome plated nickel silver inner slide. Nickel silver accents and braces. Brass silver leadpipe. Lacquer finish. Inverse conical receiver to cylindrical slide segment containing first bow, to tapered tenon joint for connecting bell section. Threaded tenon joint which connects to slide receiver and locking nut on bell section. One side action coil spring water key with cork pad on slide crook. One removable leadpipe. Small bow guard with bumper ball and rubber nipple. The "LW" of this slide indicates it is the lightweight option. The leadpipe in this model is the "2B", indicating a brass leadpipe of longer length (2 being the longer leadpipe model).

### Dimensions

Overall length: 33-1/4" Primary bore at tenon: 0.547" Diameter of outer slide tubes: 0.602"
