

Basic Detail Report

Diatonic harmonica, G

Date
1930 ca.

Primary Maker

C. A. Seydel Söhne

Description

Metal casings with flat end tabs. Wooden comb varnished deep red. Two brass reed plates with 7 reeds each (14 total). Seven holes, 2 reeds per hole (1 blow/1 draw). The casings are shaped to resemble a Zeppelin, and the harmonica forms the gondola of the blimp. The cover continues around and bulges out above in airship shape with tail fins and a nose point. Six escape holes near the harmonica represent portholes, another two holes are located on the nose of the blimp.

Dimensions

Length: 4-1/4 in Width: 1-1/2 in
